

# 2026 Weixin Mini Program Development Competition Regulations

To help outstanding Mini Programs gain greater visibility and access to broader opportunities, the Weixin Mini Program Team and WAIC Future Tech, are jointly launching the **2026 Weixin Mini Program Development Competition** (the "Competition").

Under the theme "**Coexisting with AI**," the Competition is open to submissions from developers around the world. Participants are encouraged to leverage AI capabilities to create innovative Mini Programs, integrate with the Weixin AI ecosystem, and contribute to building an open and diverse Weixin developer ecosystem.

Whether you create AI-powered Mini Programs to bring new ideas to life or apply AI technologies to reinvent traditional solutions, we look forward to seeing your creativity, innovation, and practical applications.

Entries must be developed and built based on the technical system of Weixin Mini Programs. Participants are encouraged to make appropriate use of AI technologies to design, develop, and launch products that address real-world use cases.

We welcome startup teams, developers, and technology enthusiasts from around the world to join the Competition and explore new possibilities for innovation on the Weixin Mini Program.

## I. Eligibility

The Competition is open to developers worldwide, with no restrictions based on educational background or professional status. Individuals from all backgrounds are welcome to participate. Minors shall obtain consent from a parent or legal guardian prior to entry.

Eligibility requirements are as follows:

- (1) Participants may enter either as individuals or form teams of a maximum of 3 members.
- (2) Each participant may register only once using their real identity. Duplicate registrations are not permitted. If duplicate registrations are identified, only the first registration and the corresponding submission will be considered valid.
- (3) Participants must ensure that all submitted information is true, accurate, and complete. Any false or misleading information may result in disqualification.
- (4) Participants may select any competition region for entry and are encouraged to choose the region corresponding to their place of residence.

## II. Entry Requirements

Entries must be original Weixin Mini Programs with innovative features (excluding Mini Games). Participants are encouraged to leverage Weixin Mini Program technologies to develop solutions that address real-world needs. Participants may independently determine their project themes, provided that they comply with Weixin's regulations and the following requirements:

- (1) There are no restrictions on project themes. Participants may design and develop their own Weixin Mini Programs.
- (2) Entries must comply with the Weixin Mini Program Design Guidelines [🔗 Weixin Mini Program Design Guidelines](#) and the Weixin Mini Program Platform Operation Specifications [🔗 Weixin Mini Program Platform Operation Specifications](#), and other applicable agreements and regulations.
- (3) The Mini Program must be officially launched on the Weixin Mini Program Platform during the submission period of this Competition (July 17 – October 17, 2026) and must operate normally within Weixin. Mini Programs launched or in operation before July 17, 2026 are not eligible for this Competition.
- (4) The Competition encourages participants to integrate their entries with the Weixin AI ecosystem. Following integration, Mini Programs may have the opportunity to be recommended and called by Weixin AI.

For integration methods, please refer to :

[🔗 Guidelines for Developers Integrating into the Weixin AI Ecosystem](#)

- (5) Participants may leverage AI technologies in project development and product implementation. The use of AI resources must comply with applicable laws, regulations, and Competition rules. Using AI to plagiarize existing works or improperly reuse existing project source code is strictly prohibited. The core ideas and implemented content of projects must be original, and all AI usage must be compliant and traceable.

## III. Registration and Submission Requirements

Participants must submit relevant information and documentation through the official Competition website in accordance with these Regulations :

- (1) **Identification document (image):** Each participant shall submit a valid identity document. Participants from Mainland China shall upload photos of both sides of their Resident Identity Card; participants from the Hong Kong SAR and Macao SAR shall

upload their Mainland Travel Permit for Hong Kong and Macao Residents, Residence Permit or other valid identity documents; participants from Taiwan shall upload their Mainland Travel Permit for Taiwan Residents, Residence Permit or other valid identity documents; overseas participants shall upload the passport information page.

(2) **Mini Program name.**

(3) **Mini Program AppID.**

(4) **Mini Program QR code (image).**

(5) **Mini Program introduction document:** A comprehensive description of the entry and participant(s), including but not limited to functionality overview, application scenarios, real-world problems addressed, technical development approach, and innovation highlights. Any third-party development resources or materials used must be clearly disclosed in the document. The document must be submitted in PDF format.

(6) **Participation Authorization Letter** (download from the official Competition website and complete as required): By registering for the Competition and submitting an entry, participants authorize the Competition organizer to use their portrait, name, and entry-related information for Competition publicity, promotion, WAIC UP year-end gala, and other related purposes. Participants also authorize the organizer to use submitted entries in connection with Competition activities and subsequent promotion, including but not limited to exhibition, screening, broadcasting, information network dissemination, adaptation, and compilation.

## IV. Competition Format

### 1. Schedule and Timeline

| Time Node                          | Competition Matters                                                                     |
|------------------------------------|-----------------------------------------------------------------------------------------|
| July 17, 2026 00:00 – Oct 17 23:59 | Registration and Entry Submission                                                       |
| October 18 – October 28, 2026      | Online regional review and selection of finalists for the regional finals               |
| October 29 – mid-November 2026     | Online regional finals (one day per region); selection of finalists for the Grand Final |
| Late November 2026                 | Grand Final (offline, one day); selection of winning entries                            |

December 10–11, 2026

WAIC UP Year-End Gala; showcase of winning entries

Notes:

- (1) All Competition schedules and deadlines are based on Beijing Time (GMT+8).
- (2) Specific times for regional finals and the Grand Final are to be determined; please follow the official Competition website and the "来微信做个小程序" official account.

## 2. Evaluation Criteria

The Organizing Committee will evaluate entries across four dimensions: product practicality, product innovation, user experience, and completeness. Specific criteria:

| Evaluation Dimension | Weight | Evaluation Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|----------------------|--------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Practicality | 30     | <ul style="list-style-type: none"><li>● Pain points: The product addresses real user needs based on identified pain points.</li><li>● Application scenarios: Strong alignment between the product and clearly defined target users and use cases.</li><li>● User feedback: After official launch, the Mini Program demonstrates positive user feedback and operational data (e.g., DAU, MAU).</li></ul>                                                                                                   |
| Product Innovation   | 30     | <ul style="list-style-type: none"><li>● AI application innovation: Effective integration with the Weixin AI ecosystem or innovative application of AI technologies to enhance product capabilities.</li><li>● Theme innovation: Addresses real-world problems and unmet needs, including niche scenarios or areas with limited existing solutions.</li><li>● Solution innovation: Solves practical problems through innovative approaches, demonstrating originality and clear differentiation.</li></ul> |

|                        |    |                                                                                                                                                                                                                                                                                            |
|------------------------|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>User Experience</b> | 20 | <ul style="list-style-type: none"> <li>● Product design: User interactions are intuitive and easy to understand.</li> <li>● Product logic: Product logic and functionality meet user needs and provide an easy-to-use experience.</li> </ul>                                               |
| <b>Completeness</b>    | 20 | <ul style="list-style-type: none"> <li>● Product stability: The Mini Program operates reliably with complete core functionalities.</li> <li>● Submission materials: Materials are complete, properly formatted, and clearly presented, fully demonstrating the product's value.</li> </ul> |

Notes :

For the regional finals and Grand Final, in addition to product evaluation scores, participants' on-site performance will also be assessed based on the following criteria. Regional review scores will not carry over to the Grand Final.

- (1) **Presentation:** Clearly and explicitly introduce the product (including positioning, innovation points, technical approach, etc.).
- (2) **Q&A:** Respond to judges' questions clearly, concisely, and effectively, with answers that are focused and to the point.

### 3. Advancement Rules

- (1) **Regional Final Qualification:** After the registration and submission phase ends, each region will appoint review experts to conduct online evaluations in accordance with the Competition rules and determine the list of entries advancing to the regional finals (30 entries). The list will be submitted to and publicly announced by the Organizing Committee. Finalists will participate in online presentations and Q&A sessions to compete for regional awards.
- (2) **Grand Final Qualification:** The top 5 winning entries from each region will advance to the Grand Final. A total of 25 entries will enter the Grand Final, where the final award

winners will be determined.

## V. Awards

### 1. Regional Awards

All entries in each region will be evaluated by the regional judging panel. Each region will independently award the following prizes: Regional First Prize (5), Regional Second Prize (10), and Regional Third Prize (15). Winning entries will receive regional award certificates, and First Prize winners will qualify for the Grand Final. If no entries meet the evaluation criteria for a particular award, that award may remain unawarded.

### 2. Grand Final Awards

Entries advancing to the Grand Final will be evaluated for the following Grand Final awards: First Prize (1), Second Prize (3), and Third Prize (6). An additional AI Special Award, the Outstanding AI Entry Award (3), will also be presented. The total prize pool for the Grand Final is RMB 490,000 (before tax).

| Award Name   | Quantity | Prize (RMB) | Rewards & Honors                                                                                                                                                             |
|--------------|----------|-------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First Prize  | 1        | 100,000     | <ul style="list-style-type: none"><li>● Honor certificate;</li><li>● WAIC UP Year-End Gala showcase slot;</li><li>● open-mic sharing opportunity at the 2027 WAIC.</li></ul> |
| Second Prize | 3        | 50,000      | <ul style="list-style-type: none"><li>● Honor certificate;</li><li>● WAIC UP Year-End Gala showcase slot;</li><li>● open-mic sharing opportunity at the 2027 WAIC.</li></ul> |

|                           |   |        |                                                                                                                                                                                  |
|---------------------------|---|--------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Third Prize               | 6 | 30,000 | <ul style="list-style-type: none"> <li>● Honor certificate;</li> <li>● WAIC UP Year-End Gala showcase slot;</li> <li>● open-mic sharing opportunity at the 2027 WAIC.</li> </ul> |
| Outstanding AI Work Award | 3 | 20,000 | <ul style="list-style-type: none"> <li>● Honor certificate;</li> <li>● open-mic sharing opportunity at the 2027 WAIC.</li> </ul>                                                 |

Notes:

- (1) A single entry may win both a Grand Final award (First Prize, Second Prize, Third Prize) and the Outstanding AI Work Award.
- (2) Winners are responsible for paying personal income tax in accordance with applicable laws and regulations. The Organizing Committee may collect winners' tax-related information directly or through an authorized third party and fulfill applicable tax withholding and remittance obligations.
- (3) The arrangement of the open-mic sharing session at WAIC 2027 is subject to the official event schedule of WAIC 2027.

## VI. Competition Regions

### 1. Regional Divisions

To facilitate the organization and management of the Competition, conduct offline information sessions, and promote developer community exchanges, the Competition is divided into five regions. Participants are advised to select the appropriate region based on their place of residence.

| Region             | Covered Provinces/Areas (Reference)                                                            |
|--------------------|------------------------------------------------------------------------------------------------|
| East China Region  | Shanghai, Jiangsu, Zhejiang, Anhui, Fujian, Jiangxi, Henan, Hubei, Hunan                       |
| South China Region | Guangdong, Guangxi, Hainan, Guizhou, Yunnan, Hong Kong SAR, Macao SAR, Taiwan Region           |
| West China Region  | Chongqing, Sichuan, Xizang, Shaanxi, Gansu, Qinghai, Ningxia, Xinjiang Uygur Autonomous Region |
| North China Region | Beijing, Tianjin, Hebei, Shanxi, Inner Mongolia, Liaoning, Jilin, Heilongjiang, Shandong       |
| Overseas Region    | All countries and regions outside China                                                        |

During the registration period, the Organizing Committee will organize regional information sessions and developer exchange activities. Participants are advised to follow official channels, including the official Competition website, the Weixin Official Account "来微信做个小程序", and the Competition community, for updates.

## 2. Registration Path

Participants may submit registration information and entry materials through the official Competition website, or scan the QR code below to register.

## VII. Violation Handling

The following acts shall be considered violations. Upon discovery, the Organizing Committee reserves the right to disqualify the relevant participant and entry. In serious cases, violation

records may result in restrictions on future participation in Weixin Mini Program competitions, and the Organizing Committee reserves the right to pursue further legal action.

- (1) Providing false registration information; impersonating another person; registering in the name of a non-existent team; or concealing the actual composition of the team.
- (2) Violating the Competition rules, applicable laws and regulations, or Weixin platform rules.
- (3) Suspected plagiarism, infringement, or misappropriation of intellectual property rights; commissioning third parties to develop entries or participate in the Competition on behalf of the participant.
- (4) Improper use of AI technologies: unauthorized use of third-party AI-generated content; use of AI-powered crawlers to illegally collect copyrighted data or materials; abuse of AI tools in violation of Competition rules to circumvent originality requirements.
- (5) Entries containing harmful, obscene, pornographic, or defamatory content targeting third parties.
- (6) Unjustified absence from Competition activities; withdrawal from the Competition without valid reasons after securing a participation slot; refusal to cooperate with Organizing Committee verification; or refusal to provide entry traceability materials.
- (7) Other violations identified or reported during the Competition.

## **VIII. Appeals and Dispute Resolution**

- (1) Participants or teams may submit an appeal to the Organizing Committee regarding issues including, but not limited to, the use of prohibited devices, tools, or software, unfair evaluation, improper award decisions, or disciplinary violations by Competition staff. The Organizing Committee is responsible for receiving, reviewing, investigating, and resolving appeals to ensure the orderly operation of the Competition and fairness of results. The Organizing Committee's decision on appeals is final.
- (2) Appeals must include specific grounds and supporting evidence, identify a primary contact person, and be signed and confirmed by all team members (where applicable). Incomplete or unsigned appeals will not be accepted.
- (3) The Organizing Committee will accept valid appeal materials and complete the review process within five (5) working days from the date of formal receipt. Appeals will be handled in accordance with applicable Competition rules.

## **IX. Important Notices**

- (1) Registration information and entries may be modified before the submission deadline.

After the deadline, resubmission is not permitted, and team members may not be changed.

- (2) Intellectual property rights in the 2026 Competition entries remain with the participants. Participants grant the Organizing Committee a non-exclusive, perpetual, royalty-free, sublicensable right to use participants' portraits, names, and entry-related information for promotional purposes, including but not limited to this Competition and WAIC UP Year-End Gala exhibitions.
- (3) Award Winners must submit identification, payment details, and other required materials within the period specified by the Organizing Committee. Failure to submit the required materials on time or submission of inaccurate information will be deemed a voluntary waiver of the relevant award.
- (4) Awards, benefits, and related rights obtained through the Competition are non-transferable.
